

Lighting4Diamonds partners Vijay Paul and Jorge Pascual bring great drive and expertise to everything they do. They recently took a big step to ensure the company continues to grow and serves our clients in every possible way. With Jorge's rich and diverse background which includes 40 plus years in the custom showcase manufacturing and design business, Jorge has used his wide range of experience to work with some of the industries top retailers to create stores that truly represent their brand.

With this varied experience from the entire team in mind, Paul and Pascual decided that in addition to lighting services, they should also provide their clients custom showcase creation and in-store design planning. Our warehouse located in the USA, turns out exquisite custom created showcases and customized lighting solutions. These showcases are made to a client's exact specifications. We use Italian made material that is both durable and cost effective and does not chip, crack nor fade. Our in-store design planning brings our client's vision to life and provides them the opportunity to impress their customers as soon as they walk through the door.

Though we value our original goal of expertly providing lighting solutions that helps to increase our sales. We are grateful to introduce a new division to the Lighting4Diamonds history with the addition of these new services. We take great pride in our customer service as well as in our products and we are always ready to help our clients improve their business and sales.

Here are Lighting4Diamonds we are able to supply and create custom cases for numerous applications.

Jewelry Display Cases For Retail Merchandising & Theft Prevention

Our high quality cases are hand built in the USA and arrive to you fully assembled. Our customers appreciate the workmanship and attention to detail in our cases. We often hear from happy customers whose display cases have been in service for 10, 15, even 20 years.

Whether you need 1 or 100, you can count on getting the highest quality jewelry display case available. We offer a wide variety of "Dealer Ready" finished jewelry cases in a multitude of sizes, finishes and options, or can build your cases custom in any configuration you can imagine. We also provide secure display case features.

Glass on top, front, back, and sides to showcase merchandise from any angle

Available bright energy efficient integrated LED lights make your inventory sparkle.

Available Theft Deterrent glass options deter "Smash and Grab" robberies.

Showcase Glass On The Top, Inventory Storage Below

Our Half-Vision Display cases allow you to attractively show off your premium items under glass with an adjustable 10" shelf on the top. In the lower section, the storage area is open and accessed from the back. You can also customize the storage area with secure drawers, shelves, and cabinet doors.

Our Half Vision Cases can be ordered with a wide variety of options including high-quality LED light fixtures we custom manufacture to perfectly fit our cases. We also offer full vision display cases, and extra vision display cases.

We offer a wide variety of options to configure your under-storage area to best fit your needs. Call us today to build yours.

Full Vision Displays With Multiple Levels of Shelving And Room to Spare for Storage

Our Full Vision Display Cases give you more space to show off your premium merchandise with two shelves and a smaller space for unseen storage than our Half Vision Cases. These cases are available with either front opening or rear opening configurations.

Our Full Vision Cases can be ordered with a wide variety of options including high-quality LED light fixtures we custom manufacture to perfectly fit our cases.

Whether you need 1 or 100, you can count on getting the highest quality full vision display case available. We offer a wide variety of "Dealer Ready" finished cases in a multitude of sizes, finishes and options, or can build your cases custom in any configuration you can imagine. We also offer half vision displays and extra vision displays.

We offer a wide variety of options to configure your under-storage area to best fit your needs. Call us today to build yours!

High Security Display Case Construction and Lexan Glass Deters "Smash and Grab" Crimes

When you are in the business of retailing high-quality expensive items like jewelry, handbags, or firearms it's an unfortunate fact-of-life that there are some bad people in the world who try and steal other people's merchandise. Any of our showcases can be manufactured to make unauthorized access extremely difficult.

We use incredibly strong Lexan Glass which is reinforced to the point that it simply cannot be smashed with tools as heavy as a full-size sledge hammer. We reinforce the doors, hinges, and locks to make them pry resistant and nearly impossible to open without a key.

In a "smash and grab" burglary or worse, a robbery when your store is open, seconds count.

When the bad guys figure out how difficult it is to break into a Security Case, they often just leave. Our security features are often included in our custom jewelry display cases as well as many other custom showcases and pre-built displays we manufacture.

How Do We Make our High Security Cases Resist Smash and Grab?

High Quality Engineering and Construction

Reinforced Glass

Reinforced Doors

Pry Resistant Locks

Extra Vision Displays With Multiple Levels of Display Space to Maximize Your Merchandising Footprint

Our Extra Vision Display Cases are all about Merchandising! Every available square inch of the case can showcase your merchandise, with nothing out of sight of your customers. Extra Vision Display Cases come with one 8" adjustable glass shelf and a second adjustable glass shelf a bit deeper at 10".

These cases give your merchandising team the flexibility to adjust your jewelry, watches, handbags, or any high-quality merchandise to easily catch your customers eye.

Our Extra Vision Cases can be ordered with a wide variety of options including high-quality LED light fixtures we custom manufacture to perfectly fit our cases. We also carry full vision displays and half vision displays.

Whether you need 1 or 100, you can count on getting the highest quality extra vision display case available. We offer a wide variety of "Dealer Ready" finished cases in a multitude of sizes, finishes and options, or can build your cases custom in any configuration you can imagine.

Corner Display Cases: Use as A Stand-Alone Case or Connect to Create a Total Merchandising System

Our Corner Display Cases allow a seamless transition as your customers work their way around your merchandising island. The corners become a showcase of their own, allowing you to take advantage of every inch of your retail floor.

Corner Display Cases seamlessly connect with our straight cases so your merchandising strategy flows from one category to the next. Whether you are looking for a corner case to integrate into your total store design, or a stand-alone open corner case to take advantage of unused retail square footage, call us to help design your total merchandising system. Corner display cases work with the rest of our line to create complete custom merchandising systems.

Tower & Vertical Display Showcases To Feature A Wide Variety of Luxury Items

Our Tower Display Cases help you get the most out of a small footprint of space. We offer variety of configurations of our Tower Displays to either stand-alone or place on top of a counter or another display case.

These cases are accessed from a framed or frameless glass door to give your merchandising team the flexibility to showoff jewelry, watches, clocks, or any other high-quality small items.

Our Tower Display Cases can be ordered with a wide variety of options including high-quality spot light fixtures we custom manufacture to fit our cases perfectly.

Whether you need 1 or 1000, you can count on getting the highest quality tower display case available. We offer a wide variety of "Dealer Ready" finished cases in a multitude of sizes, finishes and options, or can build your cases custom in any configuration you can imagine. We also build large custom security display showcases.

Put Your Walls To Work With Our Showcases

Our Wall Display Cases are available in a wide variety of configurations for a display and storage arrangement to fit the unique needs of your store. Our cases feature adjustable glass shelves with a finished or mirrored back.

The cases come standard with three 10" glass adjustable shelves. Like all of our high-quality display cases, our wall display cases can be ordered with a wide variety of options including high-quality LED light fixtures we custom manufacture to fit our cases perfectly.

Whether you need 1 or 101, you can count on getting the highest quality wall display case available. We offer a wide variety of "Dealer Ready" finished cases in a multitude of sizes,

finishes and options, or can build your cases custom in any configuration you can imagine. An standard or custom upright display case may also be a great option for you.

Upright Display Showcases: The Workhorse of Our Display Line

Our Upright Display Cases are the perfect balance of quantity and quality. With 4 rows of 12" deep shelving, you can display more products in the most efficient amount of retail space. Our upright displays are often used against a wall or in an aisle.

With multiple rows of shelving, our upright display cases can be ordered with a wide variety of options including high-quality LED light fixtures we custom manufacture to fit our cases perfectly.

Whether you need 1 or 101, you can count on getting the highest quality upright display case available. We offer a wide variety of "Dealer Ready" finished cases in a multitude of sizes, finishes and options, or can build your cases custom in any configuration you can imagine.

Wrap Counters & Register Stands: Complete your Merchandising System with Our Quality Laminate Fixtures

Our high-quality durable Wrap Counters and Register Stands seamlessly integrate with our glass display cases to complete your in-store merchandising system. We offer a wide variety of finishes as well as an infinite combination of shelves, cabinet doors, locks, and drawers.

Whether you need 1 or 101, you can count on getting the highest quality wrap counters and register stands available. We offer a wide variety of "Dealer Ready" finished stands in a multitude of sizes, finishes and options, or can build your cases custom in any configuration you can imagine. Integrates seamlessly into any of our pre-built display systems and custom merchandising systems.

Flexible and Portable Display Tables to Feature Clearance or Sale Items

Our Display Tables combine the flexibility of folding legs to relocate them anywhere in your store, or move them outside for a "Sidewalk Sale".

When not in use, these can be easily stored and stacked for maximum efficiency. Used for movies, socks, t-shirts, (any type of clothing really), candy bin, great for sales and promotions, easy & quick set up, easily display loose inventory in a store. Our display tables seamlessly integrate into all of our pre-built and custom display systems.
