Christianos Opals® Unveils specialized Search Engine for Australian Opals at <https://christianos.com.au>

Sydney, Australia – 30 January 2025 – Opals By Emmanuel Christianos Pty Limited dba Christianos Opals®, with a legacy of mining, wholesaling and exporting opals worldwide since the 1950s, proudly announces the launch of its innovative B2B platform <https://christianos.com.au>, featuring a powerful search engine designed to transform how trade professionals select and purchase Australian Opals.

Enhanced Search and Selection Tools

Our newly in-house specially developed search engine offers unmatched capabilities for filtering opals by:

- Opal Type: (Homogeneous/Boulder/Matrix)
- Body Tone: (Black/Dark/Light)
- Carat Weight Range: Easily find opals within your desired size spectrum.
- Price Range: Filter opals to match a price point
- Shapes: Search by shape
- Pairs: Specifically search for matching opal pairs

Dynamic Shopping Cart Features

Our platform's shopping cart is not just for holding selections; it's an active tool for optimizing your purchase with features to:

- Re-order by Price-per-Carat: Get the best value by sorting based on cost efficiency.
- Overall Price: Sort your cart items to compare the total cost of each piece at a glance.
- Carat Weight: Organize your selections by size for easy comparison.
